Featured Hike is on February 27 at Pacheco State Park

Pacheco State Park is a relatively young park which opened in 1997 and not yet well-known or frequently used. Although the total park area is 6,890 acres only the western 2,600 acres are open for public use at this time with 28 miles of trails. This is really rugged country and the trails are mostly fire roads with some limited single-track in the park. There are lots of ups and downs but not too much technical stuff. It will test your stamina.

This park has beautiful scenic vistas and displays of gorgeous spring wildflowers which include; miner's lettuce, goldfields, fiddleneck, popcorn flower, gilia, johnny-jump-ups, blue dicks, lomatia, santicle, and shooting star. Its home to tule elk, deer, bobcat, coyote, fox, several hawks, golden eagles. Cattle continue to graze on the ranch in the winter and spring months.

Pacheco State Park is the last remaining portion of the Mexican land grant, El Rancho San Luis Gonzaga. Francisco Pacheco and his son Juan were granted the property and built the first house in Merced County on this land in 1843. The land remained in the Pacheco family through five generations until Paula Fatjo, the great-great granddaughter of Francisco Pacheco, donated the land in 1992 to be a park.

This will be a memorable hike which you should definitely join. Call our hike leader Vivian at 408-238-3388 for more details, otherwise, we'll see you there!
